Area of Interest

I am aspiring Full Stack and Java Developer with a strong interest in building web applications. I enjoy learning new technologies and improving my coding skills. I am motivated to gain real-world experience and grow as a developer.

Education

Sri Shakthi Institute of Engineering and Technology

B.E Computer Science and Engineering

2023 – 2027

CGPA: 7.96*

Government Higher Secondary School

Higher Secondary Certificate (HSC), State Board

2023

80%

Technical Skills

Programming: Java, C

Frontend: React, React-Native

Backend: Node.js, Express

Database: Mysql, MongoDB

Core Concepts: Object-Oriented Programming (OOP)

Projects

Sports Store — MERN Stack / React, Node.js, Express, Razorpay, MongoDB

FEB - 2025

Sports Store is an online platform designed to simplify the process of browsing and purchasing sports products through a user-friendly and responsive interface. The system allows users to securely register, explore product categories, add items to a cart, and complete purchases seamlessly. It ensures secure payment processing and efficient order management for a smooth shopping experience. The application focuses on performance, usability, and structured data handling to deliver a reliable digital marketplace.

Veges Tracker — Full Stack Mobile App / React Native, Node.js, Express.js, MongoDB

FEB - 2025

Veges Tracker is a full-stack mobile application developed using React Native and Node.js to monitor district-wise vegetable prices. The system provides real-time updates and secure user authentication. Backend APIs efficiently manage location-based pricing data using MongoDB. The app ensures optimized performance and a clean mobile interface for easy accessibility.

Inventory Management System / Java (Console Application)

FEB - 2026

Inventory Management System is a console-based application developed using core Java and object-oriented programming principles. The system manages product records, stock updates, and billing operations in a structured manner. It generates detailed purchase bills with item-wise and total calculations. The application ensures data validation, stock verification, and error-free execution.

Certifications

NPTEL — Programming in Java

JAN-APR - 2025

- Completed certification covering core Java concepts including OOP, exception handling, collections, multithreading, and weekly hands-on programming tasks.

ARTTIFAI TECH — Full Stack Development

JUL(14-21) - 2025

Additional Information

Languages: English ,Tamil - Read,Write,Speak.

Strengths: Quick Learner, Team Collaboration, Adaptability, Strong Logical Thinking

Hobbies: Coding Projects, Listening to Music
